Subject: quick updates for you

Hi Mike –

I feel like there are a lot of things going on right now in MUERB, therefore I wanted to give you a quick update on where we are on a number actions. I'll keep you in the loop as things change.

1. **Texas Dicamba SLN 1-Pager:** I'm taking the lead on this one. I'm about halfway through making the requested changes, which means I'll have something for you later today. I sent OGC the document last Thursday, however Dan sent me some good feedback on Friday. My plan is to revise the document and to send it around to everyone tomorrow. I'll also let Michele know that there is a revised version headed her way soon.

2. **Georgia Dicamba SLN:** Tawanda is taking the lead. She emailed the state yesterday (main point of contact has been out of the office) and we are waiting to hear back. She emailed them Rick's questions regarding training only being offered every other year and whether or not the new application methods are required or simply additional choices on how to apply. Georgia called and left a voice message saying that they will clarify everything in an email to Tawanda. The voice message also said that the state submitted a label with annual training versus every other year, because they didn't think we would approve every other year. I asked Tawanda to give them a call if we don't receive something by mid-afternoon today. I'll let you know more before I leave today. This one is time-sensitive since it is due on 6/10/19.
3. **IG Audit Annual State Letter:** Tawanda has emailed me the draft version. My goal is to review it and provide my comments by COB today. Tawanda has completed the first draft. I'm trying to find time to read it over and provide comments. My goal is to send Tawanda my comments by COB tomorrow.
4. **Sugar beet Section 18s:** Andrea was supposed to send the documents to Tawanda before she left yesterday. I'll ask Tawanda and Andrea for an update when they arrive later this morning. We authorized all three and sent them to the states Friday afternoon.
5. **24(c) Guidance Document:** I'm meeting with Tawanda at 10:00 am to go over some questions she has. My plan is to spend most of tomorrow with the office door shut reading over and revising the document. Tawanda sent her latest version to OGC (Erin) last Thursday. I'm putting all of my comments into track changes now (right now they are hand-written) and will send them to Tawanda within the hour. This topic is on the SFIREG meeting agenda for tomorrow morning. Tawanda and I both are planning to attend.
6. **Proposed CA Tolfe nopyrad SLN:** The label that was submitted is a full label, which is much more in-depth than what is normally sent to MUEB. Based on that and that the PM team is more familiar with the chemical, I forwarded the email to them and requested they look it over. Also, we will be offering the state the option of submitting a state specific Section 3 registration, therefore that suggestion should come from the PM team. I forwarded California's email to Mike Walsh and Debra Rate last week and requested they take the lead on responding. I'm meeting with both of them at 7:30 am tomorrow to go over everything in more detail. I believe they want clarification on the request.

I hope this is helpful.

Bo
